# PAVITHRAN CHINNAPAIYAN

## BE/ELECTRICAL AND ELECTRONIC ENGINEERING

Jadayampallam, Kallavi, Krishnagiri(Dt) | pavithranchinnapaiyan@gmail.com | www.linkedin.com/in/pavithran-chinnapaiyan

## PROFILE SUMMARY

A Power System Electrical Design Engineer with over 1 year of experience in Control & Protection Panel design for substations (PPI-Nigeria, Voith Projects). I also have 4 months of experience in electrical equipment installation in distribution panels.
I have working knowledge of Trip Matrix preparation and strong skills in designing engineering documents, panel wiring schematics, relay coordination, protection schemes, and interlocking logic. I am also eager to work in Testing & Commissioning with proper training.

## ABOUT ME

I specialize in the detailed design and engineering of Secondary Systems for High Voltage (HV) and Extra High Voltage (EHV) substations. I bridge the gap between primary electrical systems and operational logic, ensuring reliability through strong protection schemes.

## WORK EXPERIENCE

### MCore Technologies Pvt Ltd

- Working as Power System Engineer under Siemens Energy deputation.
- Designing Control & Protection panels (400kV / 330kV / 132kV / 33kV).

### Role & Responsibilities:

- Technical specification review for Control & Relay Panels.
- Preparation of Design Instruction Sheet and board formation.
- General Arrangement (GA) preparation.
- Bill of Material (BOM) & Trip Matrix preparation.
- Coordination of switchyard equipment with CRP panels.
- Schematic drawings for Busbar, Transformer, Line, Feeder panels.
- Panel wiring, inter-panel wiring, and bus wiring.

## PROJECTS HANDLED

- 330kV / 132kV / 33kV AIS Substation – PPI Nigeria.
- 400kV / 330kV / 132kV / 33kV AIS Substation – Voith Projects.

## SKILLS

- Engineering Base
- Electrical CAD

## LANGUAGES

- English (fluent)
- Tamil(fluent)
